

"Dynamic Forms converts any paper template to electronic format and allows mobile workers to provide instant feed-back on inspections, surveys or any other field-based activity. igroup deliver and support SharePoint for organisations to offer customers expertise and experience"

Dynamic Forms

How can Dynamic Forms help you?

Dynamic Forms allows electronic forms to be created and deployed, enabling organisations to gather information efficiently and reliably. It can also deliver Web browser forms and/or forms for mobile devices.

The software is built on Microsoft® technology and integrates seamlessly with SharePoint. It's the ideal solution to many pressing issues for organisations whose processes include gathering and reporting data.

Problem - Paperwork is slow to complete and slow to process

Solution - Dynamic Forms reduces the work of hours to minutes - and it gets it right

Problem - We don't want skilled employees wasting time with paperwork

Solution - Dynamic Forms is easy to use and works on PDAs, tablets and laptops

Problem - We need to be able to prove compliance with multiple regulations at all stages

Solution - Dynamic Forms provides a full audit trail and full accountability

Problem - We want something that will cover all our data collecting and reporting

Solution - Dynamic Forms is reassuringly flexible and end-user reports can be produced instantly

"We needed a system where less time was spent on non-productive tasks. Dynamic Forms was the most cost-effective product to receive maximum return on investment." David Brougham, Yorkshire Energy Services

Dynamic Forms Scheduler

What are the advantages of Scheduler?

The scheduler element is the perfect way to make sure that you are getting the most effective and efficient use of your staff.

Arrange work schedules, taking into account necessary skills, availability, distance, etc at the touch of a button. Jobs can be sent direct to a remote worker, and if there's a problem, the next best selection can be achieved with the minimum of fuss.

Problem - Time spent scheduling visits is wasted and a drain on my resources

Solution - Dynamic Forms reduces the work of hours to minutes - and it gets it right

Problem - We need to be able to match qualifications and competencies to each job

Solution - Dynamic Forms' intelligent scheduler looks at these, along with distance and availability

Problem - We have to get rid of the possibility of clerical error when scheduling jobs

Solution - Dynamic Forms Scheduler will only ever produce the right choice

Problem - We want something that's easy to set up and even easier to use

Solution - Dynamic Forms Scheduler doesn't require any complex IT knowledge

"The new scheduler element has made a real difference to the way in which we allocate staff to different venues."

John Hoyle, Super One Series
